

CS3300 Introduction to Software Engineering

Project 1 Submission Guidelines

Nimisha Roy ▶ nroy9@gatech.edu

Submission Instructions

What is to be Submitted? – 1 presentation file and the **Software**

Software: packaging, documentation, and portability. The goal is to provide enough material, so that other people can use it and continue your work, if you are to open-source it --- in other words, you should make it easy and attractive for others to use your work.

Project 1 Rubric (20% of final grade)

Presentation & Demo in Class (80%)

- Presentation (40%)
 - Problem Statement and Frontend/Backend technologies described
 - Distribution of team effort described
 - Communication Skills and Time limit
- Demo (40%)
 - Login and sign-up
 - Working Backend and Front End
 - Cloud deployment
 - UI and UX

Code (20%)

- Readme With Clear Instructions to run the code
- Full Set of Working Code
- Mandatory Technologies Used
- Unit Testing included

Note: Bonus points will be awarded for additional useful features (e.g.: lat long inputted by clicking on map instead of typing; more than 1 type of nearby locations displayed; additional filter features available; etc.)

Presentation guidelines

- Time allotted per group: 5 minutes + 1 minute for Q/A
- Include the necessary details that you think are the most important and deserve to be discussed within the time constraints. Include team effort distribution.
- Workflow- **Show a demo of the application**, include the deployed weblink for the demo in your ppt (**40% of the Project grade**)
- Email your presentations to me at nroy9@gatech.edu with the subject as “TeamXX project 1 presentation” **before 4:30 PM on October 13th**

Software Guidelines

- Submit as a zip file submission on Canvas
- Include a README.txt describing the basic workflow to run a demo of your application, and a brief description of the organized file contents
- Include all the codes and packages necessary to run the application and written as part of the application
- Group submission. One person per group will submit.
